

ADVANCED Exagus

An advanced gastric support formula to assist with maintaining optimum gut function and health

- Assists maintenance of optimum gut function & health
- Suitable for all horses & foals for short or long term use
- Ideal for horses during intense training, competition or rehabilitation
- Promotes healthy digestion & absorption of nutrients in feed
- Contains EPA's & DHA's
- Competition Safe (UK)

ADVANCED GASTRIC SUPPORT FORMULA

- ✓ **Calcium Carbonate & Magnesium Hydroxide** - alkaline buffers to support the elevation of gastric PH.
- ✓ **Pectizone®** - a scientific blend of Pectin, Lecithin and Fructo-oligosaccharides (FOS) prebiotics. Pectin acts with lecithin to form a hydrophobic barrier on the gastric mucosal membranes, assisting in reducing the impact of gastric acid in the glandular section of the horses stomach. FOS assists with stimulating good bacteria and supporting intestinal efficiency.
- ✓ **Dried Algae (Laminaria)** forms a gelatinous barrier to reduce the impact of acidic stomach contents on the non-glandular section of the stomach.
- ✓ **Amino Acid - Glutamine Peptides** is a bonded and highly absorbable amino acid which aids the production of intestinal epithelial cells, supports optimal intestinal performance and is essential in the repair and production of epithelial cells.
- ✓ **Amino Acid - Threonine** aids intestinal mucin synthesis and gut barrier function.

SQUAMOUS & GLANDULAR SUPPORT

Professional
RANGE

Pouch - 1kg

- up to 20 days supply

Tub - 3kg

- up to 60 days supply

Tub - 9kg

- up to 180 days supply

Composition

Extruded Full Fat Soya, Calcium Carbonate, Pectizone® (proprietary blend of Fructo-oligosaccharides, Pectin and Lecithin), Magnesium Hydroxide, Dried Algae (Laminaria), Glutamine Peptides, Eicosapentaenoic acid (EPA), Docosahexaenoic acid (DHA)

Additives per 100g

Binders-Kaolin (E559)	15,000mg
L-Threonine	4,720mg
Lignosulphonate	3,333mg

Instructions for proper use

Horses in times of challenge 50g twice daily.

Horses for maintenance 25g twice daily.

Ponies/Foals 25g twice daily as required.

1 level scoop (included) = approx 25g.
