

Myocel-BCS

A scientifically formulated muscle supplement for horses containing a unique blend of Amino Acids and Vitamin E.

- Aids increased lean muscle mass
- Helps to improve appearance & wellbeing
- Supports increased strength
- A highly palatable, pelleted formula
- Zero sugar formula
- Competition safe (UK)

Amino Acid & Vitamin E Muscle Support Formula

- ✓ Antioxidant boost with **Vitamin E** to protect muscle cells from the damaging effect of free radicals.
- ✓ Ideal for feeding to young horses pre-training, horses in rehab, or horses which need to gain muscle mass.
- ✓ Zero sugar & suitable for horses on low sugar diets
- ✓ A high concentration of **Amino Acids** derived from Pea Protein isolated by selective precipitation.
- ✓ Supplementation with additional **Amino Acids** is especially important during periods of intensive exercise and competition.

BUILD LEAN MUSCLE MASS

Professional
RANGE

Tub - 3kg
